

Clinics

Clinics are a vital component to improving musical skill and knowledge. Group clinics often reinforce the information given to a student by their primary teacher, but with the viewpoint of an outsider. Instrument clinics can focus on one aspect of difficulty and be so beneficial when reinserted with the main group.

Let me be your next clinician and see what positive changes will come about after my work!

I have conducted clinics throughout the Mid-West and in all parts of Nova Scotia, PEI and New Brunswick. Contact me at: atlanticbandservices@gmail.com for more information.
